

ADDING A CLAUSE FOR THE INSTALLATION OF

WATER LEAK DETECTORS

\$ 2 250,00 in fees
before taxes
and disbursements,
such as the land
registry fees,
for an approximate
minimal total of
\$ 2 850,00

Water leakage prevention is an important issue in co-ownership. In order to be viable, most anti-leakage systems must not be modified or moved in any way, otherwise their effectiveness will be affected. It is necessary to define the legal status of this equipment in order to ensure the control of the syndicate all while allowing a fair and equitable distribution of the related costs (installation, maintenance and replacement).

Not sure and want to talk about it? Click the link below to book a free 15 minute consultation with one of our co-ownership lawyers:
